ALL OPERATIONS MANAGEMENT

Mgmt Instructions No. 9

TO ALL CONCERNED,

SUBJECT: Air Conditioner on Lead Locomotive

POLICY AUTHOR: Bob Repola

Address questions about this policy to:

Bob Repola: 352-1589

Bill Barrington: 352-1296

When locomotive consists are made up for use during hot weather\*, or in locations where trains will operate through hot weather\* areas prior to the destination point of the locomotive consist, reasonable effort should be made to place a locomotive equipped with an operative air conditioner as the lead locomotive in the consist if locomotive is otherwise good for use as the controlling locomotive.

At locations where crews make up locomotive consists, these instructions should be issued by Superintendent's Notice.

\*Hot weather is when temperatures are expected to be greater than 90 degrees fahrenheit.
